

REMARKS

At the outset, counsel for Applicant acknowledges with appreciation the discussions with the Examiner in reaching language in the claims that best clarify the invention and that put them in condition for allowance. In summary, those discussions were centered on merely clarifying the invention and adding the language noted herein to more clearly separate the claimed invention from the noted prior art.

As a result of the amendment herein, claims 1, 3 and 8-11 are remaining (claims 8 and 9 were previously amended in the Paper submitted by Applicant on June 11, 2001).

Applicant submits that the application is now in condition for allowance. Favorable action is requested hereon.

The Commissioner is hereby authorized to charge any fees associated with this response or credit any overpayment to Deposit Account No. 13-3402.

Respectfully submitted,
